King's University College

SJPS 3500E – Community Based Learning

Course description:

- An experiential learning course wherein social justice theories and concepts will be applied to and reflected on through a local community placement.
- 1-3 students as volunteer from Sept. to April for 60 hours minimum, timing is negotiated with partner and student
- Students are able to work on projects and priorities of the partners choosing
- Students also complete a policy or advocacy tool for the community related to the sector the partner works in
